

REMMUS

LUXURY DOESN'T HAVE ANY LIMITS

REMMUS

## REMMUS, THE REVOLUTION OF LUXURY SUNBATHING

The story of Remmus began in Finland when a young Henrik Hirvensalo was enjoying a sunny day with his wife on a natural beach by a beautiful lakeside. Henrik had been lying on his towel for a while when the constant movement among his fellow sunbathers caught his attention.

All around him he saw people moving their loungers, towels and other belongings as they tried to find a perfect spot in the sun. To Henrik this appeared somewhat restless, weren't these people actually supposed to be relaxing and enjoying the best moments of the short Finnish summer?

Henrik looked at his wife, who also stood up and turned her lounger towards the sun. He started to think... couldn't sunbathing be done in a more convenient way? Henrik asked Marjo, his wife: "Darling, I know how much you love the sun... what if I could create a solution that would allow you to enjoy these brief sunny moment without all this moving and turning?"

The revolution in luxury sunbathing had begun.

## UNIQUE FINNISH DESIGN

Remmus is designed by five time Good Design Award winner Tapio Anttila. The Good Design Award is the world's most prestigious global award for new product design and graphics, and is granted by The Chicago Athenaeum and European Centre for Architecture Art Design and Urban Studies.

With simple lines and Scandinavian style Remmus will compliment the decor of your villa's pool area or the deck of your yacht with an elegant touch. As the night darkens, Remmus is automatically lit by atmospheric LED technology.

Lighted by the advanced LED technology,  
automatically or manually.

## MADE FOR ULTIMATE RELAXATION

The lounge turns automatically along with the sun allowing you to enjoy those precious sunny moments without interference. The advanced 3DEA padding technology ensures perfect climate control and maximum comfort.

If the midday sun gets too hot, four integrated water sprayers will cool down the air with a pleasant mist. Fancy refreshments? Just press a button to call a waiter.

Integrated water sprayers cool down the air with a pleasant mist.

Ergonomically designed, electrical backrest is steplessly adjustable.

Remmus turns automatically along the sun. It can also be rotated steplessly 360° by the press of a button.

## FULL OF USEFUL FEATURES

Adjust the ergonomically designed backrest of your Remmus electrically. Connect your mobile device to the lounge's high-definition sound system via Bluetooth and play your favorite music.

Recharge your smart-phone wirelessly and store your personal belongings conveniently in a waterproof locker. The lounge's cool box will keep your beverages chilled.

High-fidelity BOSE marine speakers withstand snow, rain, salt and extreme temperatures.

## THE FINEST CRAFTSMANSHIP

Remmus embodies the finest Finnish craftsmanship. The lounge is handmade from carefully selected materials provided by the best suppliers. Each lounge is individually numbered and tailored to suit your personal taste and style.

Before your Remmus is delivered, Henrik personally inspects it ensuring that every single detail meets the company's high standards of quality.

## MAIN FEATURES

### URNS ALONG WITH THE SUN

The Remmus sun lounger is true luxury for sun bathers. The sun lounger turns automatically along with the sun, but can also be rotated 360 degrees with just the press of a button.

### COOLING WATER MIST

Integrated water sprays cool down the air with a pleasant mist.

### SERVICE BUTTON

An easy and fast service button for calling your waiter or waitress.

### ELECTONICALLY ADJUSTABLE BACKREST

The backrest of the sun lounger can be adjusted easily to the right position. Electronical adjusting of the back rest is stepless.

### BEVERAGE CHILLER

Beverages stay cool in the insulated box with ice.

### ADJUSTABLE SUNSHADE

The adjustable shade allows you to limit direct sunlight and enjoy a bit of cooling shade.

### ENJOY YOUR OWN MUSIC

Connect your music device with Bluetooth to Remmus and enjoy your music via high-definition BOSE speakers. Special BOSE marine speakers can withstand rain, salt water, and extreme temperatures without losing clarity.

### ATMOSPHERE WITH LED LIGHTNING

Advanced LED technology gives ambiance to dark evenings.

### STORAGE BOX

Small storage box to keep Your belongings in order.

### CHARGING STATION FOR YOUR PHONE

Wireless charging station for smartphones.

### SMALL TRASH BIN

A small, handy trash bin.

## TECHNICAL SPECS

*Mattress width: 700 mm*

*Mattress length: 190-202 mm*

*Top diameter: 1430 mm*

The lounger's deck is made from the ultralight material used in airplane floors. The deck's exterior is covered in genuine wood. Hand polished metal components are made of acid-proof steel to enhance corrosion tolerance. Advanced, German made padding allows Remmus to breathe and due to its unique construct, the padding does not absorb water. Our first-class upholstery withstands heavy wear & tear, UV light and salt water. Remmus sunlounger is battery powered.

## MATERIALS

We are proud to present the carefully selected materials and colours of the Remmus collection. Other materials and colors available on request.

## DECK OPTIONS

For the deck we are using only the finest plywood which is finished with strong, durable and weather proof epoxy lacquer.
